

FASTER BUSINESS OUTCOMES

Get Ahead with VCE Converged Solutions

In today's mobile and digital world, IT speed and agility are essential. Which is why organizations are turning to converged infrastructure solutions to get the results they need to transform their business.

A 2015 IDC white paper reveals how VCE customers around the world are leveraging convergence to deliver faster business outcomes.

Triumph over the status quo.

Do-it-yourself infrastructure

Inflexible pools of resources

High OPEX

Accelerate the pace of innovation

Provide flexibility to meet new demands

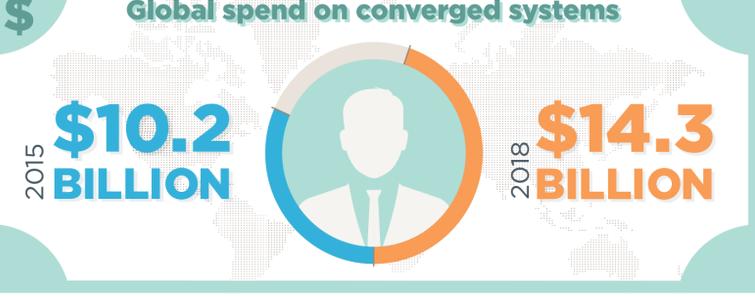

Reduce costs of operations

VCE frees up IT and enables the business to move at cloud speed.

ACCELERATE WITH CONVERGED SOLUTIONS

Adoption of converged systems is rapidly gaining traction worldwide as IT discovers new levels of simplicity and speed.

And the reasons behind **deployment** are **evolving**.

Increase utilization

Cut costs

Enterprise agility

Time to market

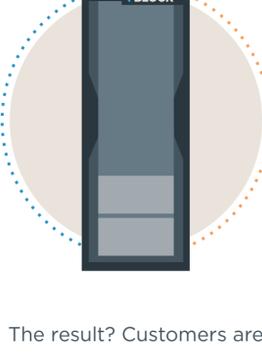

THE BUSINESS IMPACT OF VCE

VCE converged solutions make your IT environment **simple, rock-solid, and elastic**, so you can better focus on **innovation**.

4.4X

faster time to market for new services

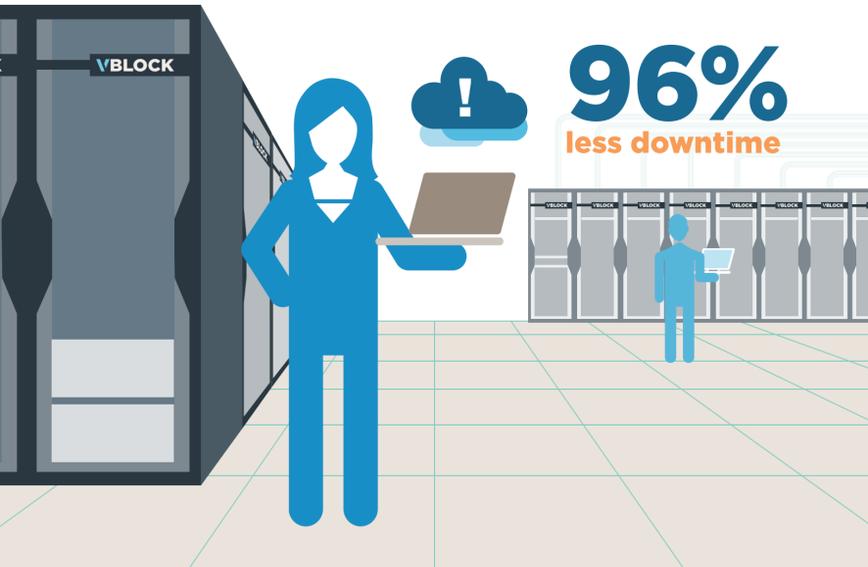

71%

more efficient data center management

The result? Customers are **transforming their business**.

4.6X more applications deployed per year

41%

less time keeping the lights on

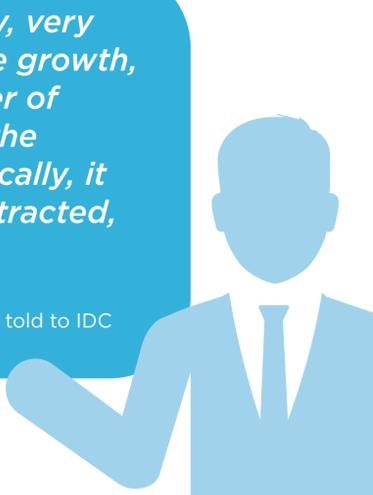

36%

reduction in IT infrastructure and staff costs

"...we've needed to scale very, very quickly to accommodate the growth, and it's simply been a matter of turning up new capacity in the Vblock environment. Historically, it would have been a very protracted, complex process."

-VCE customer, as told to IDC

POWER YOUR BOTTOM LINE

THE WORLD'S MOST ADVANCED CONVERGED SOLUTIONS

VCE, the market leader in converged infrastructure and converged solutions, dramatically reduces the cost of IT while improving time to market. VCE delivers the industry's only fully integrated and virtualized cloud infrastructure systems, allowing customers to focus on business innovation instead of integrating, validating, and managing IT infrastructure.
